

1 London for kids

- Presenter:** Hello everybody and welcome to our programme 'Great places to visit for kids'. Today we are talking about London. More than 8 million people live here. It's a fantastic place with lots of attractions. More than 18 million tourists visited London last year. With me today is Angus, a 14 year-old student from Scotland. He has visited London many times. So, Angus, what are your tips for a visit to London?
- Angus:** Well, first go to the Houses of Parliament and Big Ben. Many tourists think that Big Ben is the name of the tower of the Palace of Westminster, but it isn't. Big Ben is the name of the bell in the tower. It's very big and its sound is very famous.
- Presenter:** And where would you go next?
- Angus:** You could walk over Westminster Bridge and walk along the river. The London Aquarium is near the London Eye. You can watch sea life there. The London Dungeon is near the London Eye, too. It's a scary place. You can also take a boat on the Thames to the Tower of London. On your way you can see many famous sights, like the Shard, a very high modern building. It's very tall ... 310 metres. The Tower of London costs eleven pounds fifty for children between 5 and 15. Children under five get in for free.
- Presenter:** What about Camden Market?
- Angus:** Camden Market is another great place. There's a tube station called Camden Town, so it's very easy to find. It's open every day and it's great for shopping. The food is great there, too.
- Presenter:** Thank you for all these tips, Angus.
- Angus:** You're welcome. Bye.
